UX Researcher & Product Designer — Human-Centered Systems & Emerging Tech

EDUCATION

Carnegie Mellon University

Expected May 2027 | Pittsburgh, PA

Master of Human-Computer Interaction (MHCI)

University of Michigan

Aug 2023 – May 2026 | Ann Arbor, MI

B.S. Honors Cognitive Science (Decision Track) & Honors Psychology, Minor in User Experience

GPA: 3.9/4.0 | Distinction | University Honors | James B. Angell Scholar | Donna Wessel Walker Award

WORK EXPERIENCE

AUO Corporation | HMI Research Intern

Jun – Aug 2026 | Taipei, Taiwan

- Conducted competitive analysis of 50+ global automotive brands, benchmarking AI-powered HMI features, vehicle ecosystems, and display technologies to surface UX innovation opportunities for next-generation in-vehicle interfaces.
- Synthesized automotive AI, LLM, and mobility trends into design recommendations, partnering with UX researchers to translate user needs and behavioral insights into next-generation in-vehicle experience concepts.
- Documented vehicle UX patterns, feature landscapes, and user journeys in large-scale Figma research repositories, creating a shared reference used across design and product decision-making.
- Investigated real-world applications of display and interactive technologies through museum and exhibition field studies, translating observational insights into design recommendations for sensor- and experience-driven products.

Google Community Leaders Program | Digital Consultant Intern

Aug 2024 – May 2026 | Ann Arbor, MI

- Conducted heuristic needs assessments and structural discovery sessions for a diverse digital ecosystem, diagnosing underlying layout and conversion blocks to build unique remediation roadmaps for local SMB and 3+ active nonprofits.
- Facilitated comprehensive, multi-attendee training workshops translating complex tracking tools and digital benchmarks into actionable audience segmentation blueprints, driving a 30% programmatic increase in technical tool comprehension and optimization.
- Directed structural overhauls of digital layouts and navigation paths, deploying standard web auditing tactics to successfully convert partner organizations into optimized web and ad ecosystem architectures, including a 100% implementation success rate for Google AdGrants pipelines.

WeMo Scooters | Product Design Intern

Jun – Aug 2023 | Taipei, Taiwan

- Designed and launched WeMoNexus (wemonexus.com) in WordPress: defined sitemap, content hierarchy, and component reuse patterns to translate B2B scooter-fleet features into an intuitive, bilingual client experience.
- Structured hi-fidelity pitch deck layouts and visual hierarchy aligned to enterprise mental models to make deliverables.
- Iterated deck and product designs across 30+ stakeholder touchpoints based on cross-functional product and sales feedback, refining visual clarity and messaging for enterprise buyers.
- Managed a 250+ ICP prospect pipeline in Apollo and ran 30+ tailored product demos, yielding 20% demo-to-pilot rate.

Deloitte | Risk Advisory Intern

Jun – Aug 2024 | Taipei, Taiwan

- Developed 5 client-facing ESG compliance frameworks across 7 industries, applying content strategy and information hierarchy to present complex regulatory data to non-technical audiences.
- Restructured 200+ SigmaPro product entries with standardized taxonomy and identifiers, improving data architecture and information findability for Scope 3 emissions audits.

Amphenol Communication Solutions | Market Strategy Intern

Aug 2022 – Jun 2023 | Taipei, Taiwan

- Analyzed Salesforce CRM behavioral data to identify top contact segments, creating custom marketing strategy.
- Assembled a GTM playbook covering product positioning, pricing tiers, and competitive differentiation for cloud sharing and MDM segments, informing quarterly sales strategy for two hardware lines.

PROJECTS | FULL CASE STUDIES AT TINYURL.COM/ANITAPROJECTS

RISE Gym App | End-to-End Product Design (0–1 Mobile) | UMich Team Project

2024 | Ann Arbor, MI

- Ran user interviews and competitive analysis; synthesized findings into affinity maps, personas, and journey maps. Designed low-fidelity wireframes and interactive hi-fidelity prototypes in Figma for gym partner matching and onboarding flows, applying Nielsen's heuristics and delivering annotated redlines and interaction specs to the team.

SPOT Research Website | Accessibility Audit (WAVE, aXe)

2026 | Ann Arbor, MI

- Audited 4 pages against WCAG 2.1 AA, surfacing 10+ violations across 6 user groups; delivered a prioritized remediation roadmap targeting structural IA and inclusive usability fixes.

SKILLS

Design: Figma (design systems, prototyping, wireframing), User Research, Usability Testing, Journey Mapping, Information Architecture, WCAG 2.1 Accessibility Auditing | **Dev:** HTML5, CSS3, SCSS, JavaScript, RWD, WordPress, Webflow, Python | **Languages:** Native English & Mandarin | **Hobbies:** Cooking, Modeling, Pilates (and getting matcha after), Sitcoms.
